

Ferry County Public Hospital District

Improving Health – Saving Lives

A Message to the Employees of FCPHD from the Board

We just want you to know that the things you do for our District do not go unnoticed. We are proud of each and every department. When people think of hospitals they often think only of doctors and nurses, not aware of the many support staff behind the scenes that keep the hospital functioning.

Our Kitchen serves hot, nutritious meals to patients, residents in Long Term Care, Assisted Living, and staff. They also graciously serve seniors meals three times per week.

Our Maintenance crew maintains and repairs the hospital buildings and property. They provide security and safety and remain on-call 24 hours a day.

Central Supply ensures that there are always adequate, appropriate supplies on hand for daily needs and emergencies.

The Information Technology team provides the staff with the latest technology assistance and is on-call 24 hours a day.

Administrative staff for the Hospital and Clinics includes billing, medical records, receptionists, coders, and transcribers. These departments are constantly working to be sure that our patients' records are current and accurate, and that our patients are received in a timely and friendly manner.

Physical Therapy keeps patients moving and able to seek rehab close to home.

Human Resources assists in hiring and training, and inspiring and supporting our staff.

The Assisted Living Facility provides a home and care for members of the community requiring assistance in their daily activities.

Housekeeping and Laundry keep our facility immaculately clean and our laundry fresh.

Laboratory and Imaging staff are also available 24 hours a day to provide diagnostic studies in a confident and timely manner.

The Executive Management Team and CEO flawlessly work together to manage our Hospital in a positive and productive way.

And, of course, there is the Nursing staff who work 24 hours a day, ready to provide competent and knowledgeable care to anyone in need.

And, last but not least, to our Providers - the Doctors, Physician Assistants and Nurse Practitioners, who have been diligently working hard to make sure all patient needs are met and shifts are covered while the provider search continues.

A big thank you to everyone for all your hard work and dedication. We have an incredible team and we are grateful for every precious moment you spend caring for our community members and Hospital.

Wishing each and every one of you a great NewYear! Thank you for believing in our mission and vision.

Dave Iverson, Nancy Betschart, DiAnne Lundgren, Ron Bacon, Nancy Giddings
