

Breast Cancer Awareness Month

By Lacy Sharbono

October is National Breast Cancer Awareness Month. Most everyone knows someone who has been affected by breast cancer. Did you know that breast cancer is the second most common kind of cancer in women? It is very important to take steps for early detection. Ferry County Public Hospital District encourages all women to talk with their provider about how to

perform a monthly breast self-exam and when they should have a mammogram. As a reminder by leading a healthy lifestyle, you can reduce your risk of breast cancer.

To schedule an appointment with your provider, please call Republic Medical Clinic at 775-3153.

Prior Hospital Happenings available at <http://www.fcphd.org/news.html>.
