

## Clinic team

*By Cindy Braley, Clinic Manager*

Not feeling well? Unsure if you should come in? We are now offering a nurse line to help provide our patients with the best customer care possible. When you call our nurse line, we will have trained nurses to listen and advise you of your medical needs. If an appointment is the best route, our nurses will help assist you in getting a timely appointment. This helps avoid a high wait time as a “walk in”.

We recognize that there are times when our patients have a minor injury or illness that need to be addressed daily. We encourage our patients with urgent needs to call the nurse line first, so that we can

find the best time slot for you. Because we are working you into an already busy schedule, the nurse will provide direct access to knowing the best time to come in. This means less waiting for you and a quicker appointment overall. It's our goal to strengthen the health and well being of our community, and we believe this will be an asset to Republic.

Thank you for choosing Republic Medical Clinic for your medical needs. Please call 509-775-3153 to speak with a nurse.
